

№	Traffic	Type of data		
		Data	Service information	Necessity of direct access TCP/IP Telnet
FMI's greenhouse gas concentration and flux measurement system				
1	Value of data, transmitted during each teleconnection	350 kB (if compressed: 120 kB)	< 0.5 MB	< 1MB
2	Periodicity of transmission	Once a day (24 h)	When needed (if problems with the system)	If problems with the system
3	Information type	ASCII (or zipped ASCII)	(zipped) ASCII log files	ASCII (shell)
4	Device for formation of data	Computer	Computer	Computer
5	Who will responsible for receiving information	FMI	FMI	FMI
6	Data protocol	rsync or FTP	rsync or FTP	telnet/ssh, vnc

Table 1. Information about requirements for data transmission.
