# Ozonator Solenoid Instructions

**Ozonator Solenoid**   The Ozonator Solenoid screen allows the user to toggle the ozonator on and off.

- In the Main Menu, choose Instrument Controls > **Ozonator Solenoid.**

- Press [ ↵ ] to toggle and set the ozonator solenoid on or off.

```
OZONATOR SOLENOID:
  CURRENTLY:             OFF
    SET TO:              ON  ?

             ↵ TOGGLE VALUE

RANGE   AVG    DIAGS ALARM
```

**NOTE:**   **1. Make sure that the ozonator solenoid is set to ON.**

2. Then exit the screen back to the Main Menu by pressing the Menu button and then the "run" button (looks like a forward triangle).
