## R/V Sikuliaq Sea State POD: <u>3 Nov 2015</u>

Overview: counter-clockwise race track, then survey during initial transit

Ice forecast: refreezing pancakes, rapid ice drift Wave forecast: up to 1 m from SE (off-ice)

Met forecast: 20-30 knts E

Time (local ADT)	Location (dec min)	Activity	Personnel
00:00-04:00	CCW race track & flux stations (hr each) #2: 72°35'N, 159°08'W #3: 72°26'N, 159°26'W	ice obs UCTD (transit/staggered) radiosonde balloon (03:30)	Clancy deKlerk Guest
04:00-08:00	#4: 72°20'N, 158°59'W	ice obs UCTD (transit/staggered)	Kohout Stammerjohn
08:00-12:00	#5: 72°29'N, 158°41'W	ice obs UCTD (transit/staggered) radiosonde balloon (09:30)	Holt Talbert Guest
12:00-16:00	#6: 72°36'N, 158°26'W and ROV station of opportunity	ice obs UCTD (transit/staggered) radiosonde balloon (15:30) ROV LIDAR	Shen Smith Guest Maksym Weissling
16:00-20:00	#1: 72°42'N, 158°53'W (at 19:26 local time for TSX overpass)	ice obs UCTD (transit/staggered) stereo video? deploy + recover SWIFT? (station only)	Rogers deKlerk Smith Thomson
20:00-00:00	#2: 72°35'N, 159°08'W #3: 72°26'N, 159°26'W	PLANNING MTG (20:00) ice obs UCTD (transit/staggered) radiosonde balloon (21:30)	ALL Lund Stammerjohns Guest Thomson

## Notes:

- 1. Still need to calibrate radiometers on a clear day.
- 2. Transit speed are 3.5 knts in ice (or staggered), 7 knts in open water

## R/V Sikuliaq Sea State POD: 4 Nov 2015 (day+1)

Overview: transit south, underway CTD until 71°00'N

Ice forecast: refreezing pancakes?

Wave forecast: up to 1 m from SE (off-ice) Met forecast: dying winds, warmer air temps

Time	Location	Activity	Personnel
(local ADT)	(dec min)		
	bonus flux stations at	ice obs	Clancy
00:00-04:00	72°19'N, 159°44'W	UCTD (transit/staggered)	Talbert

20:00-00:00	и		

## Notes:

- 1. This is the final day of operations. Underway CTD and ice obs will continue in transit until crossing below  $71^{\circ}00'$ N, such that the tongue of ice west of Barrow is sampled.
- 2. Evening science meetings onboard the ship will continue thru the transit, for discussion of the observations and drafting the cruise report.
